PROFESSIONAL SUMMARY

ICT Diploma student and self-driven software developer based in Murang'a County, Kenya, with hands-on experience designing and deploying full-stack web platforms for education and community impact. Founder of FK Systems Africa, a software engineering and digital skills agency. Combines technical build capability with certified training across digital marketing, content writing, AI, and graphic design, making him equally comfortable coordinating programs and executing the technical work behind them.

EDUCATION

ICT Diploma — Kigumo Technical and Vocational College (KTVC), Murang'a County, Kenya

Expected graduation: 2027

SKILLS

- **Languages & Frameworks:** JavaScript, TypeScript, Python, C/C++, HTML/CSS, Node.js/Express, Django, Bootstrap, Tailwind CSS, cloudinary
- **Databases:** MySQL, TiDB
- **Tools & Platforms:** Git/GitHub, n8n (workflow automation), Canva, Cisco Packet Tracer
- **AI & Data:** Prompt engineering, agentic frameworks, AI ethics & governance, data analytics fundamentals
- **Digital & Communication:** Digital marketing, content writing & virtual assistance, AI-assisted graphic design

PROJECTS & VENTURES

Kigumo TVC College Website kigumotvc.ac.ke

- Designed, built, and deployed the official college website on a Node.js/Express/TiDB/Cloudinary stack; managed hosting migration from Railway to cPanel via Webcom Kenya.

EventHub [1st Place — 2026 KATTI Mount Kenya West Region TVET Fair](#)

- Built an events management platform (Node.js/TiDB); awarded 1st place in Software Application Development and advanced to the national round.

JengaShule [School SaaS concept](#)

- Designed a school management SaaS concept covering student records, exam grading, and M-Pesa/USSD-based fee collection for underserved primary and junior schools in Kenya.

FK Systems Africa [Founder](#)

- Founded and operate a software engineering and digital skills agency in Murang'a County, delivering web development and digital skills services.
